Riverside Medical Institution Patient Portal Web Application

Purpose

Purpose of the Patient Portal:

- **Easy Access to Patient Information**: Quick retrieval and updating of patient records for healthcare staff.

- **Appointment Scheduling**: Simplifies the process of scheduling appointments for patients.

- **Enhanced Communication**: Provides access to treatment details, contact information, and updates, fostering a supportive healthcare experience.

RIVERSIDE
Medical Institution

Features

- **Searchable Patient Database**: Quick access to patient records.

- **New Patient Addition**: Easy input of new patient data.

- **Appointment Scheduling**: Simplified appointment booking for patients.

- **Information Management**: Medical staff can update contact and medical details.

- **User-Friendly Interface**: Simple, responsive design for easy use.
